Idea: Coffee Dirt or Homemade Sand

Great science and approach to learning activity that provides children with unique and interesting objects to explore, touch and feel, and investigate together.

What you'll need: 4 cups dried and used coffee grounds, 1 cup flour, 2 cups cornmeal, and ½ cup salt. The tub or sensory bin, toys such as cars, trucks, scoops, sand toys, etc

How-to: Mix all ingredients, let children play. Stays fresh in airtight containers.
